# WHAT IS TRADING

*The Trading is simply referred to as buying and selling securities to make money on daily price changes. If you want to trade in the share market, you should have a good grasp of the fundamentals of share trading. Investing is very much essential these days as savings alone is not adequate to beat inflation and fulfill all our financial goals.*

*There are several investment opportunities available, and you can choose them as per your needs and convenience. It involves vigorous participation in the financial markets in comparison to investing, which primarily works on a buy-and-hold strategy. This article allows us to study in-depth about trading, types of trading, and how it works.*

## WHAT IS CRYPTOCURRENCY

*Cryptocurrency is a digital payment system that doesn't rely on banks to verify transactions. It's a peer-to-peer system that can enable anyone anywhere to send and receive payments. Instead of being physical money carried around and exchanged in the real world, cryptocurrency payments exist purely as digital entries to an online database describing specific transactions. When you transfer cryptocurrency funds, the transactions are recorded in a public ledger. Cryptocurrency is stored in digital wallets*
